WASHINGTON.

FROM OUR SPECIAL CORRESPONDENT

WASHINGTON, Feb. 19, 1875. BELLIGERENT RIGHTS FOR CUBA NOT TO BE PRESSED

A rumor here that Senator Carpenter intende to head a movement in the Senate for according belligerent rights to Cuba is shown upon inquiry to have no foundation. Senator Carpenter thinks as he has always thought, that the government ought to take such action, and he would be glad to lead or follow such a movement, but there is no such movement or any probability of it at present. The leading friend of Cuban independence say that such a movement is not advisable at this time, nor will the Con mittee on Foreign Affairs in either house propose such action without the suggestion or consent of the Secretary of State.

THE ARKANSAS TROUBLES CHASING SINCE GOV-ERNOR GARLAND'S ACCESSION.

In the House to-day Judge Poland, from the Arkansas Committee, offered a resolution that neither Congress nor any other department of the government has any need to interfere in Arkanas affairs, and he will call this up for action on monday or Tuesday. Senator sargent, in the course of his speech, gave a list of 1,167 murders and attempts to kill said to have been committed in Arkansas, and argued from this the absciute necessity of federal inter ference. These deeds, he said, were committed between the time of the reconstructed State government and the accession of Governor Garland His bloody list turns out, however, to be a strong argument in favor of the Garland government, for Sargent only left it to be in-ed that outrages and murders coutinue there. He could not assert this, and, in fact, the State is so entirely at peace now, as the Arkansas committee's report says, "that lile and property are as safe there as in New York or Ohie." A despatch received here to-day from Governor Garland, in reply to Mr. Sargent's mitted in this Store since the new government went into operation is five. The killed are one colored and one white republican and three democrats. Politics had nothing to do with the killing of any of them. Mr. Sargent's murders prove only that there was has been entirely remedled by the Garland gov. ernment, and would seem to show conclusively that this ought not to be disturbed. The latest murder is that of A. H. Furbush, a colored man, Sheriff of Lee county. Though a republican, he carried his county by his own influence in favor of the new constitution. Lee county is strongly republican, and has 1,700 colored voters. Furbush appears to have been a man of force. In a letter sage, he accused Senator Dorsey of stupendous frauds, and added, "I have had to be a political slave ever since I have been in the State, eithe to Clayton or Dorsey." The Arkansas Message lies dead in the Senate. Senators seem to be afraid to touch it, and it is hardly likely to be called up. TESTING THE INDEPENDENTS.

The executive session of the senate, though estensibly for the consideration of the Hawanan treaty, is generally believed to have for its chief object the confirmation of certain appointments and an attempt to see how the new Senators will range themselves politically. Most of them are new men and much curiosity is felt to know how independent the independent republicans are.

FROM OUR REGULAR CORRESPONDENT.

PASSAGE OF THE ARMY APPROPRIATION BILL IN

THE HOUSE. The Army Appropriation bill, which, it was thought, would give rise to acrimonious debate, passed the House to-day in the most quiet manner, and goes to the Senate for action by that body. Mr. Maynard, chairman of the republican caucus, offered an amendment to provide for two years' appropriation for the support of the army raised the point of order that unexpended appro printions, by the act of July, 1872, would be covered nto the Treasury at the end of the fiscal year, and so the amendment was not entertained, and thus ended this part of the great subjugation scheme.

PROBABLE PASSAGE OF THE TAX BILL Mr. Dawes will endeavor to get up the Tax bill to-morrow and finish its consideration in Committee of the Whole before the time for delivering the eulogies on deceased members arrives. Sev now say that the indications are that it will pass by a bare majority.

AMENDMENTS TO THE INDIAN APPROPRIATION BILL.

The Senate, in an evening session, discussed at length the Indian Appropriation bill. Mr. Windom's amendment to increase the sum for the support and education of orphans in the Central agency from \$10,000 to \$35,000, and afterward authorize the purchase and shipment of goods in this fiscal year when necessary to inthe first of the ensuing fiscal year was agreed to, as were also various changes recommended by the Committee on Indian Affairs, among which was one appropriating \$500,000 for the subsistence of the Arapahoes, Cheyennes, Anaches, Klowas, Comanches and Wachitas in the indian Territory. Mr. Stewart's amendment to abolish the Plute reservation in Nevada was agreed to: while the proposition of Mr. Stevenson to pay and Tennessee bonds was ruled out as a private

> WASHINGTON, Feb. 19, 1875. RAILWAY MAIL SERVICE.

Mr. Bangs, superintendent of the railway mail service, in a communication to Postmaster General Jewell, presents statistics of the amounts of all the different classes of matter mailed at the flity largest post offices in the United States during the four weeks ended December 29, 1874, that

month being selected because it included the season when the mails would be likely to be used to a great extent in forwarding holiday goods. these statistics it appears that of the 4,543,648 pounds of all classes of matter mailed during that time at these fifty offices there was second class and 20 per cent of the third class. Samples of merchandise occupied less of the mai facilities than books or any other class. Mr. Bangs says it is not probable that the mails will value or delicate texture great distances excepting between places destitute of expres inclining merchandise should be retained on account of its many advantages to the public He argues, however, that there should be one third class, and shows that, in most cases, this would not increase the present cost of transporta tion. In conclusion, he claims to have proved that the deficiency of the Post Office Department is not in any way attributable to samples of merchandise or other third class-matter.

PACIFIC RAILROADS. The Cabinet to-day considered the proposition of the Union Pacific Ratiroad Company, which has een amended so as to make the Sinking Fund commence in 1872, applying to it the amount now due the Company from the government; then the company, beginning in 1875, to pay \$500,000 per year in semi-annual payments for ten years; after his \$750,000 semi-annually for ten years; then \$1,000,000 per year, until the aggregate sums meet the bonded debt and interest; also to allow the government to apply all transportation and mail dues, as fast as received, to the above sums. Any ment and the obligations of the company is to be made up by the company every six months. The Cabinet decided to send this proposition to Congress, with a recommendation that action be comptly taken, so the government could begin to realize its benefits July 1, 1875. The proposition of the Central Paoific Railroad Company will also be submitted to Congress at the same time for

The House Committee on Pacific Railroads this morning agreed by a majority vote to report and recommend the passage of the Texas and Pacific Railroad bill. No change was made in its provisions, as agreed to by the sub-committee.

Their consultations with Senators ences do not appear to be confined exclusively to themselves, but to include quite a number of prominent gentlemen who, though not having sympathized with the Cincinnati movement, seem e fully in accord with the opinions there an nounced, which they suppose to be tending to independent political action by the people.

IMPROVEMENT OF THE UPPER MISSISSIPPI. A depth of three feet could be secured by the expenditure of \$2,030,720.

ARKANSAS AND PINCHBACK.

POLITICAL OPINIONS AS TO PINCHBACK'S REJEC-TION BY THE UNITED STATES SENATE-A MERITED REBUKE TO GRANT.

LITTLE ROCK, Feb. 19, 1875. The vote in the United States Senate yesterday rejecting the credentials of Pinchback has been the subject of considerable comment in political circles to-day, in view of the bearing it may have upon the Arkansas question. Democrats are of an opinion that it is a merited rebuke to Grant on his Louisiana policy, and will have a beneficial effect as a stepping stone to the rejection of his recommendations regarding Arkansas. Republicans claim that the vote indicates a disposition on the part of Congress to repudiate all irregular governments in the South, and, should that be done, Governor Brooks' chances for recognition are appreciated, as the Gariand government is held by them to be a usurpation in the Legislature to-day. The House passed the Senate bill appropriating \$40,000 of the Permanent Senool Fund of the State to be used by the different State departments.

ELECTION TO THE UNITED STATES SENATE OF HON. S. J. B. M'MILLAN-SKETCH OF THE BENATOR-ELECT.

The ballot to-day in the joint convention of the Legislature resulted in the election of S. J. R. McMillan to the United States Senate, in place of Ramsey, by a vote of 82 to 16 for Lochren.

The Senator-elect is the present Chief Justice o the State Supreme Court, and is a man of unimpeachable integrity. He has always been a republican in politics; but, having occupied for many years the benches of the District and Su-preme courts, his participation in political affairs has been limited to casting his vote. He is about fifty years of age, and is a prominent member of the Presbyterian Church.
